Phone: 208-585-1760 ~ Jim Vandermaas, Candidate for US Senate, Declares Candidacy for US Senate – Files Today

Eagle, ID March 12th, 2020 --

Jim Vandermaas, candidate for US Senate, is proud to announce that he ‘filed’ his Declaration of Candidacy for US Senate for Idaho today, March 12th at 4:00pm.

Unfortunately, most of us Idahoans are no longer familiar with what our US Senator is supposed to be doing for us, our state, and our country. Not since the days of Frank Church, have we had a Senator that actually works for all the people, our environment, our public lands and wilderness areas, and for our nation as a whole.

A return to that type of leadership is just what Jim Vandermaas is planning to do. Jim is officially filing as a candidate for the US Senate today at 4pm, and is looking forward going to Washington to work hard to improve the lives of working Idahoans, and ensure everyone has an equal opportunity for a good education and career, living and fair wages, affordable healthcare, protecting our environment and access to our public lands, infrastructure projects that help Idaho to compete on a level field, strengthening our middle-class, and so much more...

Jim has lived a life of proven public service, always putting others first, and is someone with fresh, innovative ideas for solving the issues facing our state and our citizens. And someone who is determined to work with others, focusing on issues, not party; able to work with anyone to get the job done. The way we should expect our US Senator to be!

Jim Vandermaas will work to heal our divisiveness, focusing on what we all have in common – what’s best for our families, neighbors and country. By working together, we can replace our differences with hope and the realization that a brighter and more prosperous future is within our grasp.

Jim believes; “We can restore a sense of hope that our dreams and goals are possible if we put our differences aside and focus on what makes Idaho great – the power of its people. We Idahoans can accomplish anything if we work together with our neighbors to create a competitive and more prosperous Idaho, so that we can leave a better world for our children.”
